Summary: Software Engineer with hands-on experience building web applications using MERN stack-based technologies. Comfortable working across frontend and backend, developing user interfaces, writing REST APIs, and integrating databases. Strong Problem-Solving skills, good communication and key strength is Debugging and Brainstorming ideas.

Projects

Vibernet – **Youtube Clone:** An Entertainment App featuring polymorphic engagement systems, real-time manual counter synchronization, optimized for sub-100ms database responses and professional-grade data integrity.

Habitore – **Habit Centric Ecommerce Application:** It demonstrates my ability to build a complete, scalable application—from designing a premium user experience to structuring secure database models and API endpoints.

Teerex Store – **Ecommerce Web Application:** Built an e-commerce application with product listing, search, and cart functionality. Managed frontend state using Redux and built reusable React components.

Portfolio: Designed and developed a responsive portfolio website using React and modern CSS.
Added a simple AI-based chatbot to answer questions about projects and skills.

Skills

Languages: JavaScript (ES6+), TypeScript, Java, Python
Frontend: React.js, Next.js, Tailwind CSS, Bootstrap, Redux Toolkit, Zustand
Backend & DB: Node.js, Express.js, MongoDB, MySQL, MariaDB, REST APIs
AI & Tools: Prompt Engineering, AI-Assisted Development, AI Research, Git, Vercel, Postman
Concepts: Data Structures, Auth (JWT), State Management, SEO, AI-Driven Dev

Certifications

Google AI Professional Certificate – Google
JavaScript Algorithms and Data Structures – freeCodeCamp
Python Data Structures – University of Michigan – (Coursera)
Git & GitHub Fundamentals – Simplilearn

Education

Bachelor of Engineering (B.E.) – Computer Science Engineering | Visvesvaraya Technological University
BLDEA's V.P. Dr. P.G. Halakatti College of Engineering, Vijayapura
2017 – 2023 | CGPA: 7.0
